

SCHOOL ATTENDANCE AREAS

The boundaries of attendance centers for each elementary school in the school district will be established by the Board of Education, and all modifications or alterations in such boundaries will be approved by the Board. The superintendent of schools or designee may make recommendations to the Board on the maintenance or alteration of established boundaries of attendance centers.

Groups of pupils may be assigned to a school or schools outside the enrollment attendance areas if crowded facilities so necessitate. A student wishing to enroll in an attendance area outside the area of residence should make application to the office of the superintendent of schools, stating the reasons for attendance in a different area. The superintendent or designee may act on such applications based upon the merits of the applications, or may refer the matter to the Board of Education.

The Board of Education realizes it may be necessary to close certain schools to outside enrollment due to crowded conditions. This will be taken into consideration by the superintendent or designee and the Board in the assignment of students.
