

$$34,800\text{sf} - 4100\text{sf} = 30,700\text{sf}$$

42,000sf – 400*5-800= 39,200sf *estimated island SF and subtracted from total

Estimate 30,000 for the front loop and smaller parking lot, and 40,000 for the large parking lot

70,000sf total

Concrete curb, either ribbon or standard, round up to 300 LF
