

Policy GB-1: PART-TIME AND SUBSTITUTE EMPLOYMENT

Status: DRAFT

Original Adopted Date: 06/16/2016 | Last Revised Date: 04/18/2019 | Last Reviewed Date: 04/18/2019

24C UPDATE EXPLANATION

The state decreased the requirements to qualify to be a substitute teacher in an attempt to help school districts fully staff schools. Individuals may now receive a substitute teacher certificate by completing at least 36 semester hours of college credit or completing 20 hours of online training and possessing a high school diploma. The law also prohibits people under the age of 20 from teaching in high school.

The legislature enacted other provisions that will make it easier to substitute teach. Substitute teaching certificates will now be valid for four years, instead of one year, if the person substitutes for at least five days or 40 hours each year. Further, people applying for the certificates can designate up to five school districts to receive background check results, making it easier and cheaper to substitute teach for multiple school districts.

The law encourages, but does not require, school districts to provide an orientation program for substitute teachers. The orientation should be at least two hours long and include instruction on best practices for classroom management. MSBA encourages districts to invest in professional development for substitute teachers to ensure a good experience for both the teacher and the district.

State statute now requires districts to provide substitute teachers access to a survey created by the Department of Elementary and Secondary Education (DESE), which they are required to complete. In addition, the district is required to submit information about substitutes to DESE annually.

The district may employ part-time employees and employees who will work on a substitute basis in the district. These employees must meet the same qualifications as full-time staff, must be appropriately certified or licensed when necessary, and are subject to the same policies, procedures, and other rules as full-time employees. Part-time and substitute employees must satisfactorily complete the same background checks and screenings required of full-time employees.

Substitute Employees

In accordance with law, a majority of the whole board must approve the employment of all employees, which includes substitute employees. The superintendent will present an initial list of substitute employees to the board for approval. If substitute employees are added to or removed from the list, the superintendent or designee will submit the revised list or the individual changes to the board for approval.

The district will provide all substitute teachers access to a state survey that they are required to complete, in accordance with law. Substitute teachers under the age of 20 will not teach in grades 9 through 12.

Part-Time Employees

The superintendent or designee may create part-time employment positions in situations where the district will benefit from employing part-time staff or where full-time staff are not necessary to accomplish the district's goals. The district will employ persons in part-time positions in accordance with the district's regular hiring practices and board policy.

Employing Retirees

The district may employ persons retired and currently receiving a retirement allowance from a public retirement system, but the district shall consult with that public retirement system before hiring one of their beneficiaries.

Restrictions on Employment and Transfer

The district does not offer health coverage for part-time or substitute employees, unless required by law to do so. Therefore the district will carefully consider re-employing in a part-time or substitute capacity a recently retired or former employee with the understanding the person would be entitled by law to district-paid health coverage. However, the district will consider an application once the person has gone 26 weeks without being credited for an hour of service with the district.

Likewise, the district will carefully consider transferring a full-time employee to a part-time position with the understanding the employee would be entitled by law to district-paid health coverage.

Contracts

The contracts of all teachers employed on a regular, part-time basis must explicitly state the percentage of full-time equivalent (FTE) work for which they are contracted so that the district may accurately calculate the accumulation of tenure.
