

3.21 Walk for Down Syndrome

#endthestereotypes

WORLD DOWN SYNDROME DAY

#ENDTHESTEREOTYPES

Community Celebration

Join us to learn & celebrate!

Invite your family & friends to join as a community to celebrate World Down Syndrome Day! We will begin the evening with a "walk around the track" to raise awareness and show support for all students, especially to shout out our students who are born with Down Syndrome.

CHECK IN 4:30 PM - 5 PM

MEET IN THE PCHS CAFETERIA

WALK 5 PM - 6:30 PM

WALK AROUND THE PCHS TRACK

CELEBRATE! 6:30 PM - 7:30 PM

GRILL OUT TO CELEBRATE! Food & Drinks provided by local business donors.

March 21

Did you know that Down Syndrome is a genetic condition that causes delays both physically and intellectually? 1 in every 800 children are born with Down Syndrome.

What causes this genetic condition? The most common type of Down Syndrome is Trisomy 21. This means that individuals born with Trisomy 21 have three of their 21st chromosome, instead of two.

Mismatching socks are often used to characterize individuals with Down Syndrome as well. This illustrates the different pairs of chromosomes these individuals have.

This is why we celebrate World Down Syndrome Day on 3/21.

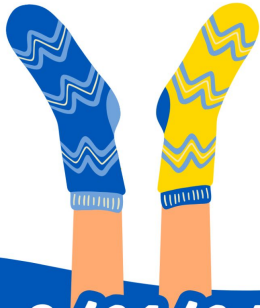

We hope to see people from our community at this event on March 21 at 4:30!

If you have a loved one or friend with Down Syndrome, feel free to walk for that person or persons!

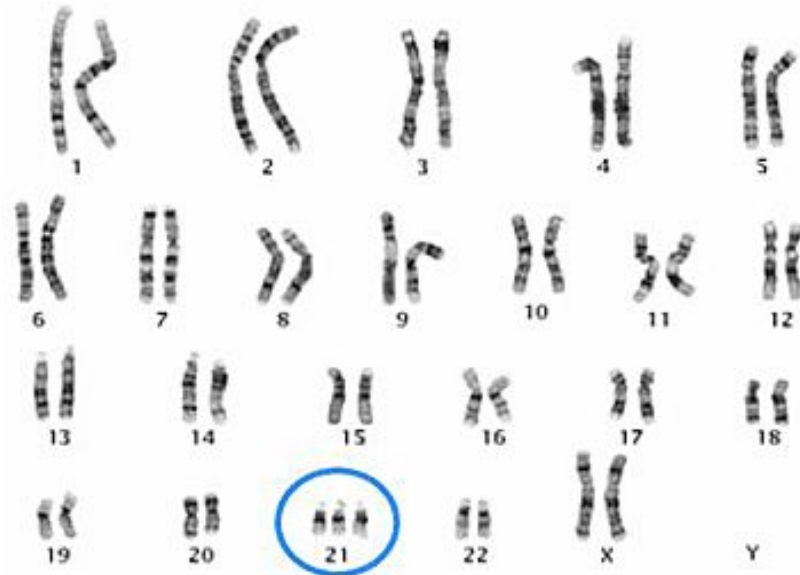

What is this day all about?

Facts Shared Around the Track:

WORLD DOWN SYNDROME DAY

FACT

Down syndrome occurs in people of all races and economic levels.

#ENDTHESTEREOTYPES

Down Syndrome is the most common chromosomal condition.

Down syndrome is the most commonly occurring chromosomal condition. Approximately one in every 772 babies in the United States is born with Down syndrome – about 5,100 each year.

FACTS

There are three types of Down syndrome: trisomy 21 (nondisjunction) accounts for 95% of cases, translocation accounts for about 4%, and mosaicism accounts for about 1%
