

Surplus Property List for July Board of Education Meeting (7/18/24)

General information:

The items on the following pages are proposed for surplus property. Our annual capital improvement plan identified Barry Elementary for furniture replacement that has been phased in over the course of three to four years. The existing furniture was repurposed to other District sites, and what is remaining will be placed on surplus property pending Board of Education approval.

The lunch tables are from Paxton Center and were used before the completion of Phase One of Platte County High School. These items are requested to be deemed as surplus property pending Board of Education approval.

Surplus Property List for July Board of Education Meeting (7/18/24)
