

Surplus Property List For February Board of Education Meeting (2/16/2023)

General information:

The items listed on the next several pages are recommended for surplus property. These items came from the north, south, and portions of the Paxton cafeterias at Platte County High School. Platte County High School students began using our new cafeteria on January 3, 2023. Much of the equipment from the original kitchen areas were repurposed across the District.

Repurposing efforts:

- Kitchen equipment was reallocated to the new cafeteria in PCHS (pizza warmers, mixers, ice machine)
- Kitchen equipment was reallocated to other PCR3 facilities (server, mixer)
- PCHS Prostart and NCC Culinary departments claimed equipment for program needs (ice machine, serving tables, convection oven)
- Platte Purchase Middle School project will also use some repurposed equipment (pizza warmer, kitchen accessories)

The remaining equipment in this document is recommended for surplus.
